<p>Year Three</p>	<p>What do archaeological findings tell us about Ancient Egyptians?  <b>Civilisation;</b></p> <p><b><u>I understand where and when the Ancient Egyptians existed and what their lives were like.</u></b></p>	<p>What were the greatest achievements of the Ancient Civilisations?  <b>Civilisation;</b></p> <p><b><u>I can explain when and where the Shang Dynasty, Indus Valley, Egyptian and Sumerian civilisations were</u></b></p>	<p><b>How did the development of tools change how people lived from the Stone Age to the Bronze Age?</b>  <b>Civilisation; Invasion and Settlement; Transport and technology</b></p> <p><b><u>To understand the chronology of the Stone Age to the Iron Age</u></b></p>

- I know that Ancient Egypt civilisation lasted from 7500BC to 51BC
- The River Nile was crucial to the Egyptians – helping them farm, travel and survive.
- I know that artefacts have told us about how they lived.

**I know Howard Carter discovered the tomb of Tutankhamun, a pharaoh, in 1922.**

- Howard Carter discovered the tomb in the Valley of Kings.
- Many precious items were found in the tomb.
- The tomb was not fully-decorated because Tutankhamun died so young.

**I know that looking after the dead was important to people during ancient Egyptian times.**

- It was important to them to look after dead people to help them get to the afterlife.
- There were 8 steps to the mummification process.
- The process aimed to help the dead to get to the afterlife with their body and possessions intact.
- They had special objects that they used during the ritual.
- Wealthy people (like pharaohs) got more lavish mummification.
- Egyptian gods also helped get you to the afterlife.

**I know how the Rosetta Stone allowed us to understand Egyptian writing.**

- The Rosetta Stone was discovered by Pierre Bouchard.
- It was decoded because it was also written in other known languages.
- Hieroglyphics uses symbols instead of letters.
- It took 20 years for the Rosetta Stone to be decoded.

**in existence and describe similarities between their locations.**

- All 4 civilisations were located near major rivers.
- The Shang Dynasty were around at the same time as the Ancient Egyptians and the Ancient Sumerians
- The Shang Dynasty existed from 1600BC-1046BC.

**I can label and explain the main geographical features of the Shang Dynasty.**

- The Shang Dynasty existed in the eastern part of China.
- They existed near the Yellow River, in the Yellow River Valley.
- The Yellow River was important to them, because it gave them water and good land to grow crops.

**I can explain how the Shang Dynasty developed bronze technology.**

- The Shang Dynasty used bronze to make weapons (unlike the Indus Valley people)
- They made bronze arrowheads, which travelled longer distances and spears and dagger axes which were stronger and sharper than ones made from stone.
- The Shang Dynasty were able to win more battles because of their bronze weapons.

**I can explain how artefacts like oracle bones help us know more about the Shang Dynasty.**

- The Shang people believed they were writing on dragon bones.
- They used to write questions to the gods on the bones, burn holes in them and then interpret the cracks to find the answer.
- Most of what we know about the Shang Dynasty comes from oracle bones, as archaeologists could read what they wrote about.

**I can explain the greatest achievements of the Shang Dynasty.**

- The Stone Age came first, with Bronze Age next and Iron Age after that.
- Stone Age is made up of Palaeolithic, Mesolithic and Neolithic periods.
- Stone Age covers from 3million years ago up to 2500BC.

**To understand development in tools throughout the Palaeolithic, Mesolithic and Neolithic Stone Age eras**

- Tools were made out of a hard stone called Flint.
- Tools were hand-held in the beginning but then they attached wooden handles and made spears and arrows.
- In the Neolithic era, they made specialist tools for farming.

**To be able to understand the key developments in tools in The Bronze Age**

- Bronze was made from copper and tin in a process called 'smelting'.
- Bronze tools helped people to work more quickly.
- Bronze weapons and armour helped people to defend their settlements.

**To be able to understand the key developments in tools The Iron Age**

- Iron was stronger and lighter than bronze.
- Iron could be shaped by heating it and hammering it into shape.
- Iron Age people developed moving tools which helped them do jobs more quickly – like grinding flour or making pottery.

**I can understand how homes developed from the Stone Age to the Iron Age**

- Stone Age people made temporary homes from sticks and animal skins that they could move from place to place.
- Bronze Age and Iron Age homes used 'wattle and daub' to make walls.
- Iron Age people built their homes on Hill Forts so they could defend their territory more easily.

		<p>The Shang Dynasty were great at war, because of their use of bronze weapons.</p> <p>The Shang Dynasty invented some of the earliest Chinese writing, which was found on oracle bones.</p> <p>The Shang Dynasty had a government. Rich people worked for the king/government and ordinary people did harder jobs like farming or mining.</p>	<p><b><u>To summarise the impact of tool development on life in Britain during these times.</u></b></p> <ul style="list-style-type: none"> <li>• Explain how improvement in tool strength and sharpness made life easier through the ages.</li> <li>• Explain the advantages and disadvantages of the different homes.</li> <li>• Explain how farming made life easier compared to early Stone Age life.</li> </ul>

Civilisation; Society, belief and politics; Transport and technology,

**I know who the Mayans were and when they lived.**

- The Mayans were a civilisation that lasted for over 3000 years (2,000BCE – 1500AD)
- The Mayans lived in Mesoamerica which is now modern Mexico and parts of Central America.
- The Mayan Civilisation ended when the Spanish invaders arrived and took over the region in the 16<sup>th</sup> Century.

**I know about Mayan society and what they believed.**

- The Maya built amazing cities like Tika
- Mayan cities were ruled by different Kings and Queens.
- Maya believed in Gods that represented different parts of life
- Mayans believed that priest could communicate with the Gods. They were responsible for leading worship and sacrifice.

**I Know the importance of the Mayan writing and number system.**

- The Maya created their own base 20 number system and used symbols to represent their numbers including pebbles sticks and shells.
- Mayans used symbols and hieroglyphs to write and had books called codices which folded out.
- Writing could be found on stone or on pottery.

**I know who the Anglo-Saxons were and why they settled in Britain.**

- The Anglo-Saxons were invited by the British King Vortigern to fight against the Scots and the Picts.
- Once the first Anglo-Saxons arrived in Britain, they liked it and decided to stay.
- The Anglo-Saxons invaded and settled in Britain migrating from Germany, Denmark and The Netherlands.

**I know how the Anglo Saxons have influenced place names in the present day.**

- The Anglo-Saxons used Saxon language to name places.
- Some parts of Saxon language can still be found in the name of our towns.
- Towns which have Anglo-Saxons place names indicates areas which the Anglo Saxons settled.

**I know what a typical Anglo-Saxon village was like and can explain what jobs the people did.**

- Anglo-Saxon houses were built of wood and had thatched roofs made of straw.
- An Anglo-Saxon family home had one room, with a fire for cooking, heating and light.
- Anglo- Saxon children were considered to be adult from the age of 10 and expected to work.
- Anglo-Saxon women were responsible for cooking, weaving cloth and housekeeping.
- Anglo-Saxons men were expected to fight as part of the army, hunt, farm and make jewellery.

**I can understand how Anglo-Saxon Britain was ruled.**

- Each Anglo- Saxon kingdom each had their own leader or war chief.

Society, belief and politics; Local history;

**I know who the Suffragettes were.**

- The suffragettes were a group of women who fought for equal voting rights.
- Emmeline Pankhurst started the suffragette movement.

**I know what impact the Suffragettes had on Britain.**

- The suffragette movement was the beginning of women having a parliamentary vote.

**I know why Manchester became the starting place for the Suffragette.**

- Emmeline Pankhurst was raised in Manchester.
- Emmeline Pankhurst and her family lived at number 62 Nelson Street and the first meeting of the movement that became known as the suffragettes took place in the parlour of this house.
- Emmeline Pankhurst statue unveiled in St Peter's Square, Manchester to mark 100 years since women received the right to vote.

**I know the role of propaganda in the Suffragette movement**

- Propaganda is biased political information.
- To be able to identify pro and anti-suffragette propaganda and the impact these had.
- To understand the reliability of sources.

**I know what impact the Manchester Suffragette movement had on Britain.**
